DETAILED ACTION

Allowable Subject Matter

1. Claims 1-47 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant arguments are persuasive in the sense that the prior art does not teach or would not have rendered obvious: a video projector, such as claimed in claims 1-18, having: a housing, the housing containing at least a portion of the network adapter, the microprocessor, the graphics adapter, the light valve, and the light source; wherein the video projector is capable of projecting a graphic image onto a screen that is remote from the video projector, and is capable of applying Keystone correction to a video frame. The closest prior, Wakai et al (5,973,722) discloses a video projector system, fails to anticipate or render obvious the present invention as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
